

Hello!

On Sunday, 27 October 2013, 03:00 UTC, VOICE OF KOREA, the official external broadcasting service of the DPR Korea (North) from Pyongyang, introduced the B13 Winter schedule.

I have monitored additional changes to my previously published schedules so please find attached the amended schedules. I have compiled the Word-documents according to the station's announcements and highlighted the changes in red.

The most outstanding change is that PYONGYANG PANGSONG (Pyongyang Broadcasting Station - PBS) is no longer available via VOICE OF KOREA's shortwave transmitters since the station has started its own website [www.gnu.rep.kp](http://www.gnu.rep.kp)

Another change is that on 3250 kHz only PYONGYANG PANGSONG and the Japanese broadcasts of VOICE OF KOREA are on the air. No other foreign language programmes can be heard anymore.

VOICE OF KOREA are anxious to get reception reports and letters from their listeners. Please send them to
